

R 58

Dual independently operated PID controlled boilers allowing for optimum extraction of any coffee type or roast style. Rocket Espresso inclined boiler technology means precise group temperature adjustment and unprecedented levels of temperature stability.

Commercial grade rotary pump draws from the machines internal water reservoir or allows for the

machine to have a direct water connection from the water supply.

Machine functions are controlled from the Rocket Espresso communication pod that plugs into the side of the R 58. The pod can be removed to preserve the style of the machine that is Rocket Espresso.

R 58 FEATURES

- Dual boilers of 0.58 and 1.8 litres
- PID controlled
- Rotary pump
- Rocket Espresso communication pod
- 2.5 litre water reservoir or direct water connection option
- Wattage: 1400 W
- Dimensions: 310 x 440 x 385* mm (width x depth x height)
- Weight: 29.0 kg

*excludes cup frame
